

IS-480

FAST AND EFFICIENT MAIL PROCESSING

PERFORMANCE ASSURED

- Ergonomically-designed control panel and menu screen
- Menu selection is quick and easy
- Whisper-quiet operation
- Self-aligning mixed-size feeder allows reliable processing of mixed mail without manual adjustments
- Dynamic scale categorises and franks mixed mail at speeds up to 90 letters per minute
- Ink-replacement alerts delivered on the machine and by email

EFFICIENCY OPTIMISED

- NeoFunds makes it easy to keep your mail moving; simply download postage now and pay later
- Smart Start technology eliminates keystrokes and saves time. Each time a mail piece is removed from the weigh platform, the system is set in motion
- Shortcut keys deliver quick selection for operational efficiency
- Automatic setting of postal rate dies eliminates errors, ensures compliance and improves productivity
- Imprint memory feature offers direct access for fast recall
- Easy postal rate selection with failsafe Rate Wizard, quick shortcuts, or select from most recently used rates

COST CONTROL

- PIN code protection helps you control usage
- Default rate setting helps eliminate accidental mis-posting
- Postage usage allocation by department or user
- Online access to detailed postal usage by department, class, or user
- Advanced Neopost MAS, PC mail accounting software
- Assign budgets by department or cost centre

WE VALUE YOUR MAIL

IS-480

INTELLIGENT HIGH PERFORMANCE MODULAR MAILING SYSTEM

Dynamic businesses count on smart productivity tools to do more than simply move the mail. Neopost's IS-480 takes mail processing to a new level of intelligence and delivers productivity at its best.

With state-of-the-art technology and **myneopost** online services under your control, you'll be sure to have the best-in-class solution to meet your demanding mail room needs.

Convenient to use, the highly capable IS-480 with whisper-quiet operation is fast and efficient. With the smallest footprint in its category, you'll appreciate the sleek ergonomic design that easily integrates into your business environment.

MIX IT UP – IS-480 WILL SORT IT AND SEAL IT

Eliminate the manual task of sorting mail by size, thickness, or weight. Simply Load 'n Go when you place your envelopes of various sizes and formats into the mixed-size self-aligning feeder and press start. And no matter what your needs are, the IS-480 can process and automatically seal up to 150 letters per minute. It's that easy – sorted, sealed and ready to go.

FULL COLOUR TOUCHSCREEN CONTROL

The full colour touchscreen minimises keystrokes and puts even the occasional user in control with an easy-to-read overview.

Eliminate errors with a host of smart functions and effortless menu prompts that deliver the extensive features of the IS-480.

Benefit by using the failsafe Rate Wizard, or the 'last rates used' – just like redialing a number on your mobile phone – and easy-to-use shortcut keys that save you time.

PRICING YOUR MAIL HAS NEVER BEEN FASTER

Dramatically reduce mail processing time and simplify operations with the Neopost Speedweigh dynamic scale. Its intelligent four-point-detection system is patented to automatically weigh and measure full dimensions and then processes your mail, accurately franking it in compliance with Pricing in Proportion at speeds up to 90 letters per minute.

For larger package handling, external weigh platforms with up to 30kg in capacity are available that can be ergonomically placed where you use them most.

Whats more, with Differential Weighing and Smart Start technology you simply place a stack of mail on the platform, lift one piece off at a time and the system will automatically dispense a postage label.

MONITOR, TRACK AND CONTROL POSTAL EXPENDITURE ONLINE

myneopost online services give you greater control over your mailing system and postal expenditures. The IS-480 connects to **myneopost** to help you manage your operations more efficiently.

Never run out of ink with Low Ink E-Mail Alerts.

Enjoy the hassle-free automatic postal rate change downloads that ensure you're compliant with the latest postal rates. With convenient online access, you can monitor and track postage, mail class, and department usage.

Automatic mixed-size feeder adjusts to sort mail by size and thickness. Self-aligning rollers prevent jams or misprints.

Differential weighing technology calculates and delivers the exact postage for each item removed from the platform.

Intuitive colour touchscreen provides simple navigation, minimizes keystrokes and improves efficiency with one touch selection.

PIP compliant dynamic scale automatically categorizes based on shape and weight, then accurately rates mail at speeds up to 90 letters per minute.

Function shortcut keys offer operational efficiency.

Wide feed deck processes large envelopes in either portrait or landscape formats.

MAIL ACCOUNTING SOLUTIONS THAT KEEP YOU IN CONTROL

Optimising budget and effective costs control are expected in today's business environment. Neopost MAS delivers the detailed reports you need to track, analyse, allocate, forecast, and consolidate your mail processing activity by mail class, department, time-period and more, even from a distance.

You can establish budget by department and then monitor costs with automatic alerts or limits controlling overspending. Connect to a PC with Neopost MAS installed and you're never out of control.

WE'VE GOT YOU COVERED

Neopost customer support is there for you with our UK based contact centre and nationwide trained technicians who are ready to assist you.

In fact, our dedication to providing you with world-class customer satisfaction is so advanced that we offer automatic diagnostics with our IS product line. By uploading systems data, we will be alerted if you are having trouble.

With **myneopost**, this remote access to your system allows us to analyse the situation remotely and then fix it accordingly.

Eco-friendly, the upgraded Neopost IS range is designed to reduce your environmental footprint.

Being ISO 14001 (environmental) certified, Neopost will serve you according to the highest process, quality and environmental standards.
